### FINAL SCHEDULE POLICY

**Students: Be sure to check your course syllabi to see which of your courses has a final exam. It may be an online exam instead of in-classroom. If you are unsure, email your professor ASAP.**

1. All students are expected to take final examinations at the time scheduled. Exams will take place in the room where the class met unless noted above and/or if the instructor had made alternate arrangements and has communicated those with his/her students.

2. If you have two finals at the same time or if you have more than two finals on any one day, please see the instructors of those classes to arrange for another testing time.
